### **DOCUMENTS TO BE CARRIED ON BOARD** **AIRCRAFT REGISTERED IN BOTSWANA**

The Purpose of this AIC is to update to the requirements on documents to be carried by aircraft registered in Botswana as laid down in Regulation 10 of BCARs (Operation of Aircrafts Regulations) 2013 and the ICAO Annex 6 recommendations

Civil Aviation Authority of Botswana (CAAB) requires the operators of Botswana registered aircraft to carry on board the aircraft a certified true copy of the Air Operator Certificate and its Operations Specifications.

#### **Applicability**

Aircraft registered in Botswana and engaged in international navigation shall carry on board the documents required by BCARS Regulation 10 (Operation of Aircraft) Regulations 2013.

Botswana AOC holder must ensure that on any flight for the purpose of commercial air transport and the flight is international air navigation, the aircraft shall carry a certified true copy of the air operator certificate and its operations specifications.

An ICAO Member State complying with the Standard will expect a Botswana AOC holder, operating into their territory, to have a certified true copy of the AOC and its Operation's specifications available on board during a ramp check.
